On May 3 we said goodbye to the '80s when ABC's *The Goldbergs* concluded after 10 seasons. Then later, ABC forced us to get emotional again, when *A Million Little Things* ended. Here's a look at other shows coming to an end this month.

Final Episodes Forever For ...

NCIS: Los Angeles CBS, May 14 & 21

Callen (Chris O'Donnell) and Sam (LL Cool J) brought a lot of fugitives and criminals to justice over 14 seasons of the *NCIS* spinoff. The series ends its run with a two-week finale called "New Beginnings," in which *NCIS* aids in the search for stolen military-grade weapons, and Callen and Anna (Bar Paly) plan their wedding. The finale is followed by the retrospective special *A Salute to NCIS: Los Angeles*.

The Blacklist

NBC, May/June

"After 10 years, hundreds of Blacklist cases and more than 200 episodes produced, we're honored to reach our conclusion," says John Eisendrath, *The Blacklist* showrunner and executive producer.

The Flash

The CW, May 24

In announcing that *The Flash* was coming to an end, executive producer Eric Wallace enthused, "Nine seasons! Nine years of saving Central City while taking audiences on an emotional journey full of heart, humor and spectacle."

Succession

HBO, May 28

"There's a promise in the title of *Succession*. I've never thought this could go on forever. The end has always been kind of present in my mind," creator Jesse Armstrong told *The New Yorker*.

Barry

HBO, May 28

"It's been an amazing journey making this show, and it's bittersweet that the story has come to its natural conclusion," series star Bill Hader says. And we loved every minute of it!

About 3,000 dapper dogs descend on New York City for the 147th Westminster Kennel Club Dog Show May 7-9. After a two-year stint in Tarrytown, New York, due to the COVID-19 pandemic, the show is back in the boroughs at its new venue, the USTA Billie Jean King National Tennis Center in Queens. We fetched some facts about the most popular and prestigious of dog shows:

- The American Kennel Club recognizes 212 breeds of dog. So your puggle, Chiweenie, labradoodle or bullshih may be a wonderful companion, but it's no show dog. Also, since this whole thing is about *breeding*, the dog can't be spayed or neutered. Sorry, Bob Barker.
- There is one new eligible breed competing this year: the Bracco Italiano (Bracchi Italiani is plural).
- Dogs are judged on breed Conformation, or how well each dog compares to the official breed standards describing a dog's appearance, movement and temperament. Judges critique everything from the thickness of the whiskers to the color of the eyes.
- The terriers are the big dogs of Westminster. The group has produced 47 Best in Show winners.
- A bloodhound named GCHB CH Flessner's Toot My Own Horn — "Trumpet" for short — won Best in Show in 2022.

Jane's Aunt Sadie (Paris Jefferson) and Detective John Cameron (Stephen Huszar) act as her mentors as she takes on her first case surrounding a mother's untimely death years before. As Jane investigates a multi-level marketing company that took advantage of her client's (Danielle Smith) fragile mom, she realizes that digging up the past can be dangerous.

Food Network will premiere its new series *Summer Baking Championship* on Monday, May 15 at 9 PM ET/PT, with back-to-back episodes. Ten talented bakers tackle unique summer-themed baking challenges for a chance to take home a \$25,000 grand prize. “I haven’t been this excited since I got my first bicycle!”

Introducing *ZOOMER!*

The portable, folding, battery-powered chair that offers easy one-handed operation

Remember when you were a child and got your first bicycle? I do. It gave me a sense of independence . . . I felt like I could go anywhere, and it was so much easier and more enjoyable than walking. Well, at my age, that bike wouldn’t do me much good. Fortunately, there’s a new invention that gives me the freedom and independence to go wherever I want . . . safely and easily. It’s called the *Zoomer*, and it’s changed my life.

My Zoomer is a delight to ride! It has increased my mobility in my apartment, my opportunities to enjoy the out-of-doors, and enabled me to visit the homes of my children for longer periods of time. The various speeds of it match my need for safety, it is easy to turn, and I am most pleased with the freedom of movement it gives me.

Sincerely, A. Macon, Williamsburg, VA

After just one trip around your home in the *Zoomer*, you’ll marvel at how easy it is to navigate. It is designed to maneuver in tight spaces like doorways, between furniture, and around corners. It can go over thresholds and works great on any kind of floor or carpet. It’s not bulky or cumbersome, so it can roll right up to a table or desk- there’s no need to transfer to a chair. Its sturdy yet lightweight aluminum frame makes it durable and comfortable. Its dual motors power it at up to 3.7 miles per hour and its automatic electromagnetic brakes

stop on a dime. The rechargeable battery powers it for up to 8 miles on a single charge. Plus, its exclusive foldable design enables you to transport it easily and even store it in a closet or under a bed when it’s not in use.

Why spend another day letting mobility issues hamper your lifestyle? Call now and find out how you can have your very own *Zoomer*.

5 QUESTIONS with ...

OLIVER STARK
Of FOX's "9-1-1"

By Jacqueline Cutler

Firefighter Evan Buckley (Oliver Stark) was struck by lightning and died — albeit only for a few minutes. Buck was on the job, quickly attended to, and recovered. His sister, Maddie (Jennifer Love Hewitt), hovered. So, it's been a typically fraught season for the Monday night FOX drama. The sixth season just wrapped shooting, and Stark was dropping off rolls of film to develop when he pulled over in his car to answer our "5 Questions."

1. Does your interest in photography tie to your days as a sports journalist? I just have been capturing people at work, doing their jobs. I had always had an interest in writing, and I'm also a huge — I suppose I should say soccer fan — I would like to say football. When I was younger, there was this sports website, and I would just write about my life as a fan of this particular team. But I don't think I ever got paid for anything.

2. Tell us about a time you were starstruck. When I was between the ages of 17 and 20, I worked in a store selling video games. Sometimes we would have football players from the team that I supported come in, and they were otherworldly to me. That was a really, really big deal.

3. What shows did you grow up loving? 24 was a big deal because it was one of the only things that me and my brother and my dad would all sit down to watch together.

4. What early job did you have before making it as an actor that influences you today? Working in a gym, spending a lot of time around fitness professionals and learning from their lifestyle, and seeing their level of dedication, commitment and willpower was really influential to me. And it's something that I still very much have an interest in, and I do credit to watching these people around me come in and be able to formulate a plan and stick to it and reap the benefits from it. So yeah, I think working in a gym was a big one for me.

5. What is your ideal day? I like to wake up early. I like to go to the gym first thing in the morning. I find my days being much more positive if I am able to get that in. Probably going to take my dog for a walk. I'm very lucky to live quite a bit away from the city and have a little bit of land in the mountains, so it's very quiet, very serene up there. Have some breakfast, and check with my girlfriend to see if she wants to do anything. I know this isn't very exciting sounding, but maybe we go to the grocery store together, get some nice food, come home, put on a movie and make some dinner together. Have a nice glass of red wine.

Join millions of older Americans who are rediscovering the joy of walking

“I’m on the move again with my UPWalker®!”

FREE Shipping!

For years, I found myself walking less and less. As I got older, aches and pains in my back and legs caused me to stay in my chair, watching TV . . . and watching life go by. My doctor told me to be more active, and I tried. I tried canes, walkers and rollators . . . and I hated them. Shuffling along, hunched over, looking at the ground two feet in front of me— that didn’t seem like a fun way to get around. Then, one day, a friend introduced me to the **UPWalker**. Nothing’s going to stop me now!

The **UPWalker** is a revolutionary new mobility device that can change your life by changing the way you walk. It enables you to stand upright when you walk— with your spine straight and your eyes looking straight ahead. Your weight is supported by your upper arms and shoulders, some of the strongest parts of your body. Traditional walkers and rollators force you to put the pressure of your body weight on your hands and wrists. You push them in front of you, looking at the ground instead of where you are going. The **UPWalker** moves with you, with your body perfectly aligned and your feet free to walk in a normal fashion. Its easy-adjust height system allows it to be the perfect fit/height for anyone from 4’10” to 6’1” and supports up to 300 pounds. The new stand-assist handles enable you to distribute your weight across your arms

Includes 6 FREE Accessories!
(a \$142 value)

From the makers of the original UPWalker®

- Stand-Assist Handles
- Comfortable Seat
- Folds Easily
- Adjustable Backrest
- Optimized Center of Gravity
- Easy-Brake Wheels

Plus, now you can choose between dark luster silver or champagne

and shoulders, not your hands and wrists to help reduce back, neck, wrist pain and discomfort. It features comfortable arm pads, hand brakes, a fold-down seat, a backrest and two storage bags. It’s built with aircraft-grade aluminum to be sturdy yet lightweight, and its sleek design and oversized wheels make it perfect for tight spots in the house or walking in the yard.

Why spend another day bent over and shuffling around— or worse yet, plopped in front of the TV all day. Pick up the phone and take back your life. Call now.

HOROSCOPES

By YASMIN BOLAND

Kenan Thompson,
a Taurus (born May 10),
of "Saturday Night Live"

friendship zone, those you can count on you to have your back will show up. Rely on your friends to help you figure out any problems.

LIBRA (Sept. 23 - Oct. 22) Your charming and diplomatic style will work wonders for you, now that your ruler, Venus, is touring your career zone. This is a great opportunity to socialize at work or spruce up your resume and online profiles. A little effort will go a long way to impress those who count.

SCORPIO (Oct. 23 - Nov. 21) Relationships are a bit funny right now. That's because of Mercury mishaps, confusion and crossed wires. As frustrating as they may be, hang in there. The weather is about to get better. Keep the faith. Where things are now aren't where they'll always be when it comes to your love life.

SAGITTARIUS (Nov. 22 - Dec. 21) It might feel like you can't win when it comes to your daily schedule and routines. What gives? Mercury retrograde is throwing a few proverbial wrenches in the works, to be sure. Soon, you can expect things to change. A solution or positive outcome arrives when you believe it will.

CAPRICORN (Dec. 22 - Jan. 19) Your creative endeavors, children or even your dating opportunities are all muddled up right now. Mishaps and miscommunications are all a part of the territory. You know what? Things are going to change soon and for the better as well! Your stoic attitude will pay off well, hang in there!

AQUARIUS (Jan. 20 - Feb. 18) Your domestic scene is about to get better. Right now, there is confusion, delay and uncertainty – the whole nine yards! Sometimes, all you can do is ride the waves of change, knowing the universe has your back and things are OK. Your mission now is to have your own back and believe.

PISCES (Feb. 19 - March 20) Your ancient star is Jupiter. Very shortly, the biggest planet is going to change signs. So my question to you is – what are you curious or confused about? What wisdom are you seeking? What is it you want to know? The questions you're exploring will guide you toward your next adventure.

ARIES (March 21 - April 19)
Things are a bit funny with money at the moment! Your cash flow may be slower than usual. Everything you buy costs just a little bit more than it once did. Chances are, you're feeling unsettled and uncertain. Happily, things will change. All you have to do now is keep the faith!

TAURUS (April 20 - May 20) Old ways of thinking won't open new doors for you now. It's a challenge, I know. However, with Mercury retrograde in your sign, you need to be thinking differently if the growth and progress you desire is ever to become your reality. Pray for miracles, because when you do, they happen!

GEMINI (May 21 - June 20) Rearranging your thoughts and thinking differently can do wonders for seeing a problem in a new light. The beauty of being in a bit of a hermit phase now is to help you rest and reflect without distractions. Knowing what your desires are is the first step in realizing them.

CANCER (June 21 - July 22) You'll get to enjoy increased support, connection and togetherness as Venus arrives in your sign this week. With magnetic Mars already in Cancer, your powers of attraction are very strong. Be assertive and others will step up and help. Just say the word and you'll be surprised by who obliges you.

LEO (July 23 - Aug. 22) Have you ever dreamed of being something more? Maybe it's a work thing where you've been hungry for more autonomy, freedom and recognition. If that's the case, your luck is about to change. Make a radical choice this week. Position yourself for career growth and watch your life change!

VIRGO (Aug. 23 - Sept. 22) When everything feels confusing and uncertain, leaning into your nearest and dearest friends will be your source of support. With magnetic Venus and Mars in your

Bryton James Previews The Returns Of Shemar Moore And Chené Lawson To "The Young And The Restless"

Credit: SONIA FLEMING/CBS

The Young and the Restless continues to honor the late Kristoff St. John with the official opening of a jazz lounge dedicated to the memory of his character, Neil Winters. St. John passed away in 2019, and Neil's death was soon written into the show.

In March, the Newmans announced that the Genoa City Athletic Club lounge was being renamed

the Neil Winters Jazz Lounge. On Monday, May 8, Neil's children, Devon (Bryton James) and Lily (Christel Khalil), will throw a party to "christen" the lounge. Watch for two surprise visitors to make an appearance when Shemar Moore (*S.W.A.T.*) reprises his role as Malcolm Winters, Neil's half brother, and Chené Lawson re-creates her part as Yolanda Hamilton, Devon's birth mother.

Moore was last seen on *Y&R* in 2019 to speak at Neil's memorial. Lawson hasn't been seen on the show since 2006. "Shemar has never forgotten that he was on *Y&R*," says James. "To be a part of this episode that will honor Kristoff? Shemar would never turn that down."

The character of Yolanda returned for a short run in 2011 played by Debbi Morgan (when the character went by the handle "Harmony"). "I couldn't have been more excited when I heard that [Chené] was coming back to the show," James says. "I give all the thanks in the world to Josh Griffith [executive producer/head writer]." The actor adds that working with Lawson again after all these years was "like stepping back in time. She is the definition of not having aged. She's extremely talented and I'm happy to work with her again."

Y&R has unveiled a portrait of Neil that hangs in the lounge. "It does a great job of capturing his joy," James says. "There's a lot of brightness and joy [in that portrait]. That's Kristoff in a nutshell. It's what he brought to work every single day."

Watch for the jazz lounge opening to help prompt Devon to make an important decision in his life. James has been playing the part of Devon since 2004, but the two-time Daytime Emmy winner says that being on *Y&R* still feels new to him. "I just go in each day wanting to do better," he says. "It's fun to be able to play out this whole second life."

WHAT HAPPENED TO EPISODIC TV?

@TVGMMattRoush

Question: Why does every show have some type of serialized storytelling? I literally can't think of one show that does self-contained episodes. Not even *Law & Order*! What do you think? -Scott

Matt Roush: In the early days of *Law & Order*, they took pride in the fact that the show resolutely avoided going too deeply into any character's personal lives. I wouldn't say the current version has turned into a soap opera, but even *Dick Wolf* (with his *Chicago* and *FBI* series) has realized that in today's cluttered environment, you have to give viewers some emotional meat along with the self-contained procedural storylines. I get your frustration, and I find myself weighing whether keeping up with a show's serialized subplots will be worth the effort. This season, ABC's *Will Trent* is my favorite example of a show that gives us larger character arcs within stand-alone weekly storylines that don't overwhelm the drama yet keep me engaged. And Peacock's *Poker Face* was a wonderful example of a show that told individual mysteries cleverly while keeping the fugitive arc in its back pocket until the end. I'd be surprised to see TV in its current state reverting back to a "Just the facts, ma'am" *Dragnet* format.

FARMER WANTS A WIFE

for evening the playing field. Fox's rural take on dating games beats *The Bachelor* by giving the perfectly cast ranchers—including Hunter Grayson, above—and their potential partners equal agency in deciding whether to stick around. Plus, as *Yellowstone* has confirmed, cowboys are hot.

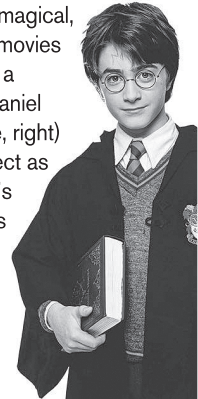

CHEERS TO THE ROOKIE: FEDS'

top ensemble. Between the playful bro-and-sis vibe of Britt Robertson and Kevin Zegers' FBI agents, Felix Solis' no-BS boss and James Lesure's easy appeal as training officer to Simone (Niecy Nash-Betts, left, with Lesure, Robertson and Zegers), the ABC spinoff deserves a casting medal.

JEERS TO HBO MAX'S

planned *Harry Potter* series. The streamer's record with reboots (*Gossip Girl*, *And Just Like That...*) is far from magical, and the movies (starring a young Daniel Radcliffe, right) are perfect as is, so let's hope this idea is "slytherin" away soon.

JEERS TO DEAD RINGERS

for killing us with the visceral visuals. We expected Prime Video's adaptation of David Cronenberg's 1988 thriller to be gory, but?! The only shock greater than the bloody imagery is Rachel Weisz's (below) astounding turn as the world's scariest twin ob-gyns.

follow Cheers & Jeers

If your tired, achy legs and feet are preventing you from moving easily...

Now, a prickly herb has been discovered to....

BOOST BLOOD FLOW TO YOUR LEGS, FEET, AND HANDS WITH A 95% SUCCESS RATE VERIFIED BY CLINICAL STUDY

A re-discovery from the 1600s is causing a frenzy within the medical system. A weird herb has been shown in six clinical studies (and by thousands of users) to be very effective for leg and feet pain, burning and numbness – with no side effects – at low cost – and with no doctor visit or prescription needed.

This weird herb comes from a 12-foot tall tree that grows in Greece and other countries in Europe. In the old days, people noticed that when their horses who had leg and feet problems ate this herb – it was almost like magic how quickly their problems got much better. They called it the “horse herb”. Then somehow with Europe’s ongoing wars, this herbal secret got lost in time.

“It works for people who’ve tried many other treatments before with little or no success. Other doctors and I are shocked at how effective it is. It has created a lot of excitement” says Dr. Ryan Shelton, M.D.

Its active ingredient has been put into pill form and improved. It is being offered in the United States under the brand name Neuroflo.

WHY ALL THIS EXCITEMENT?

Researchers have found an herb originally from Greece that has been shown in six placebo-controlled medical studies (543 participants) to be effective and safe. This natural compound strengthens blood vessel walls and reduces swelling to stop the pain and suffering.

Poor blood flow in the legs and feet is one of the common problems that develops

as we age. Millions of Americans suffer from neuropathy and chronic venous insufficiency (CVI), edema, and other leg/feet problems – millions have these but are undiagnosed.

Today’s treatments don’t work for a high percentage of people – and they have side effects that make them hard to tolerate or that people do not want to risk. This includes prescription drugs, over the counter pain pills, surgery and compression.

HOW IT WORKS

Here’s why you have pain now: Your arteries have weakened. Your arteries can’t carry enough blood, nutrients and oxygen down to your legs and feet. This damages your nerves and causes your burning, tingling and numbness.

The herbs in the pill Neuroflo strengthen your arteries that carry blood, nutrients and oxygen to your feet and legs. It improves your circulation

so oxygenated blood goes to the nerves and repairs them. This makes your nerves grow stronger so your pain fades away and your legs and feet feel much younger again.

Katerina King from Murrieta, California says, “I had hands and feet tingling and snapping and burning feeling. It made my life very uncomfortable. I had a hard time walking, my legs felt like they each weighed 50 pounds. Once I got in my car and my feet felt so heavy I couldn’t even drive the car. With Neuroflo I have no more tingling, cold or burning painful legs and feet. It went away.”

WHAT DOCTORS ARE SAYING

“Now I finally have a natural solution I can recommend to my patients who suffer from leg and feet problems and pain. I’m delighted because previous treatments were not effective, but Neuroflo has worked for every one of my patients with no side effects” says Dr. Eric Wood, N.D.

Dr. Ryan Shelton, M.D. says “This is new and different. It works for people who’ve tried many other things before. It is natural with no side effects. Don’t give up hope for your leg and feet pain, burning, tingling and numbing. This pill is working for countless people after other treatments have failed them. I highly recommend it.”

“Neuroflo is a terrific choice for people with leg and feet issues. The clinical trials in support of this herb show it is very effective for safe and fast relief,” said Dr. Wood, a Harvard trained doctor who has appeared on award winning TV shows.

WORKS IN AMAZING WAY: A prickly plant was used in Europe in the 1600s to revitalize ailing legs. Lost over the centuries, it is now making a comeback as US doctors rediscover its impressive results – sending relief to thousands of users with:

- **Burning, Tingling, Numbness**
- **Painful Legs & Feet**
- **Swollen, Achy Feet**
- **Varicose Veins**

Now you can get a good night’s sleep – peaceful, restful sleep – with no pain, tingling, zinging, itching or zapping. Improve your balance and coordination. No side effects – safe to take with other medications. Enjoy your favorite activities and hobbies again. Be more active, have more fun, enjoy life more. Don’t risk irreversible damage to your feet and hands. Don’t get worse and wind up in the hospital or a nursing home.

Neuroflo is GUARANTEED to work for you – or you will get full refund with a 90-day unconditional money-back guarantee. It is NOT sold in stores or online. No prescription or doctor visit is required.

50% OFF FOR THE NEXT 10 DAYS

This is the official release of NeuroFlo for readers of TV Weekly. Therefore, everyone who calls within the next 10 days will receive 50% OFF their first order. A toll-free hotline number has been set up for local readers to call for this 50% OFF savings. The number will be open starting at 7:00 am today and only for the next 10 days.

All you have to do is CALL TOLL FREE **1-877-804-1313** and provide the operator with the special 50% OFF discount approval code: **NEF158**.

Important: Due to Neuroflo’s popularity and recent media exposure on ABC, CBS and FOX NEWS, phone lines are often busy. If you call and do not get through immediately, please be patient and call back. Those who miss the 10 day deadline for 50% OFF will have to pay more for Neuroflo.

95% Reduction in LEG SWELLING, Verified in Clinical Study

Says Dove Medical Press & Development and Therapy

... meaning, discomfort, water retention, leg swelling, tiredness and circulation improved in 95% of test subjects

Swollen legs are a warning sign. They mean blood and fluid is forced out of the blood vessels into the surrounding tissue. This causes non-stop pain. This is where Neuroflo’s active ingredient is such a big help.

Urgent: Special Summer Driving Notice

To some, sunglasses are a fashion accessory...

But When Driving, These Sunglasses May Save Your Life!

Drivers' Alert: Driving can expose you to more dangerous glare than any sunny day at the beach can... do you know how to protect yourself?

The sun rises and sets at peak travel periods, during the early morning and afternoon rush hours and many drivers find themselves temporarily blinded while driving directly into the glare of the sun. Deadly accidents are regularly caused by such blinding glare with danger arising from reflected light off another vehicle, the pavement, or even from waxed and oily windshields that can make matters worse. Yet, motorists struggle on despite being blinded by the sun's glare that can cause countless accidents every year.

Not all sunglasses are created equal. Protecting your eyes is serious business. With all the fancy fashion frames out there it can be easy to overlook what really matters—the lenses. So we did our research and looked to the very best in optic innovation and technology.

Sometimes it does take a rocket scientist. A NASA rocket scientist. Some ordinary sunglasses can obscure your vision by exposing your eyes to harmful UV rays, blue light, and reflective glare. They can also darken useful vision-enhancing light. But now, independent research conducted by scientists from NASA's Jet Propulsion Laboratory has brought forth ground-

Slip on a pair of Eagle Eyes® and everything instantly appears more vivid and sharp. You'll immediately notice that your eyes are more comfortable and relaxed and you'll feel no need to squint. The scientifically designed sunglasses are not just fashion accessories—they are necessary to protect your eyes from those harmful rays produced by the sun during peak driving times.

breaking technology to help protect human eyesight from the harmful effects of solar radiation light. This superior lens technology was first discovered when NASA scientists looked to nature for a means to superior eye protection—specifically, by studying the eyes of eagles, known for their extreme visual acuity. This discovery resulted in what is now known as Eagle Eyes®.

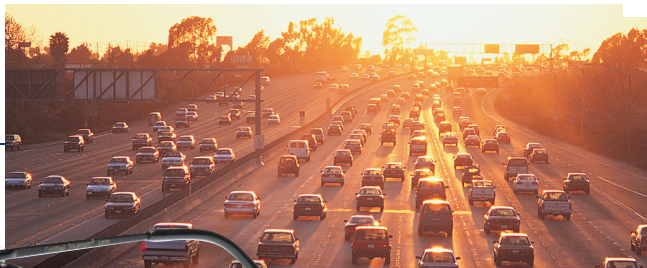

The Only Sunglass Technology Certified by the Space Foundation for UV and Blue-Light Eye Protection. Eagle Eyes®

features the most advanced eye protection technology ever created. The TriLenium® Lens Technology offers triple-filter polarization to block 99.9% UVA and UVB—plus the added benefit of blue-light eye protection. Eagle Eyes® is the only optic technology that has earned official recognition from the Space Certification Program for this remarkable technology.

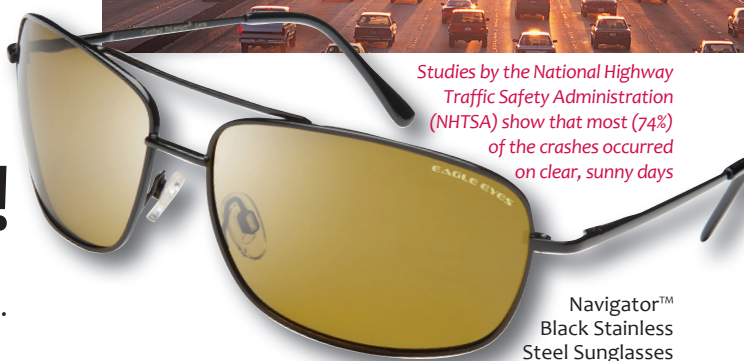

The finest optics: And buy one, get one FREE! Eagle Eyes® has the highest customer satisfaction of any item in our 20 year history. We are so excited for you to try the Eagle Eyes® breakthrough technology that we will give you a **second pair of Eagle Eyes® Navigator™ Sunglasses FREE—a \$59.95 value!**
